1			<p>I am reviewing the "Vendor Responsibility Attestation" and based on the quantity of tons included on Attachment 1 we would have to complete the Vendor Responsibility Questionnaire due to total value of contract currently provides this service I know the average tons per haul to be about 1 ton. Therefore, if we exceeding 100k. However the tons listed are overexaggerated. Because [incumbent] are using 60 hauls (pick ups) over the length of contract than total tons would be 60. If we used 60 tons the total contract value would be less than 100k. I am asking for approval to check the box stating total contract is less than 100k to avoid completing Vendor Responsibility Questionnaire.</p>	<p>The quantities included in the IFB are OPRHP's best estimate to ensure the contract covers the needs of the Park for the life of the contract. A Vendor Responsibility Questionnaire will be required if the Grand Total Cost to OPRHP is greater than or equal to \$100,000.</p>
2			<p>Are weekend pick-ups ever required?</p>	<p>Weekend pick-ups may be necessary for Additional Pickups on an on call basis.</p>
