OP32400

Fertilizer for Long Island Region Golf Courses

No.	IFB Section	IFB Page	Question	Response
22	2.1	13	<p><i>Regarding: Wetting Agent Dispatch</i> <i>30.0% Alkoxylated polyols / 21.0% Glucoethers / Inert</i> <i>Ingredient 49.0% Water</i> <i>(5 gal case or 270 Gal tote)</i></p> <p>Dispatch says we can quote in totes or 5 gal case but will not allow us to split it up. Bethpage can take a tote, then the remaining 90 gals in cases. Montauk would be all cases. How can we change this to allow for both?"</p>	<p>The 270 gallon reference has been removed and is now revised to request 5 gallon case.</p>
