scatches, or other contact with a wild or domestic animal to park staff.

west of Oxford, New York with access off NY 220.

CAMPER ALERT: DON'T MOVE FIREWOOD

A new regulation is now in effect that prohibits moving untreated firewood more than 50 miles from its source. The regulation also bans importing firewood into New York unless it has been kiln-dried to kill invasive insects. You can help protect our forests and campgrounds from tree-killing insects and diseases:

- Leave firewood at home -do not bring wood from home to campgrounds or parks.
- Only use firewood from local sources, or wood that has been heat-treated to kill pests.
- Burn ALL your wood before leaving your campsite.

To learn more about our park go online to www.nysparks.com and search for Bowman Lake
