Adirondack Region

The Adirondack Park is a vast natural park (6 million acres, or two-and-a-half times the size of Yellowstone National Park) with immense, untouched forests heaved by rugged mountain ranges mirrored in thousands of lakes and ponds.

The 2.7 million acre system of state-owned lands, known as the Adirondack Forest Preserve, has been officially designated “forever wild” and is largely undisturbed by human activity. The Adirondacks offer visitors spectacular views and long, peaceful waterways. The 46 High Peaks in the Park’s northeast mountain range have the state’s highest vantage points (over 4,000 feet). Most of the major highways that serpentine through the Park’s magnificent landscape have been officially designated as Scenic Byways. Over 70 native tree species; 55 species of mammals - such as the fisher, American marten, white-tailed deer, and black bear; 218 different birds including the American bald eagle and the common loon; plus 86 species of fish reside in the Adirondacks.

Please note that at facilities that offer swimming, there are days when lifeguards are unavailable. For the safety of our customers, these beaches will not be open and swimming will be prohibited. Not all amenities are available at all sites.

Additional accessible camping opportunities on the DEC website at [www.dec.ny.gov/outdoor/34038.html](http://www.dec.ny.gov/outdoor/34038.html). Please check website for updates on programs and schedules.
Ausable Point Campground protrudes from Route 9 into Lake Champlain and offers a shoreline comprised of natural sand and a gentle slope from many campsites. It borders a wildlife management area that offers a hiking trail, as well as water access for canoeists and kayakers to explore. With the city of Plattsburgh a short drive from this campground there is virtually no limit on entertainment opportunities.

Meadowbrook

Meadowbrook is ideally located for those visiting the Lake Placid Olympic Training Center. The campground is a short ride from a variety of hiking trails for both the experienced and novice hiker. The nearby Village of Lake Placid offers restaurants, outlet stores, gift shops, golf courses, boating, fishing, and seasonal recreation. A short car trip provides spectacular views of the surrounding area from the summit of Whiteface Mountain.
Buck Pond compares to a mountain retreat as it offers secluded sites, water access, guarded bathing beach, and an “easy to walk” trail which stretches for miles along an old abandoned railroad bed. Buck Pond Campground is located on the western shore of 130 acre Buck Pond. The Lake Kushaqua and the Kushaqua Narrows form most of the western and northern boundaries of the campground. Camping equipment from tents to 30 foot RVs can be accommodated. The campground offers a variety of recreational opportunities including: Canoeing, boating, fishing, hiking, and bicycling.
Taylor Pond can be found in the back woods, on a dirt road, and miles from the modern world. Fishing enthusiasts and naturalists come from afar to spend vacations in a lean-to, a designated open site on the back part of the pond, or the mainland campground. Taylor Pond Campground is located on the northeast corner of Taylor Pond. A dam controls the level of this 4 mile long, 813 acre “pond”. The dam, campground, and interior campsites represent the only development on the entire primitive pond. The 10 acre developed campground is surrounded by over 8,000 acres of Wild Forest state land. The campground has a remote setting with basic services and limited facilities. Camping units ranging from small tents to 30 foot RVs can be accommodated. Recreational opportunities include: Picnicking, boating, fishing, hiking, and nature observation. Loons, Osprey, Eagles, and many other fauna and flora can be observed in the area.

WILMINGTON NOTCH

Wilmington Notch is located beside the Ausable River and accommodates fishing enthusiasts looking to challenge the rapids in search of a great catch. Olympic Whiteface Mountain is on the other side of the river and offers a gondola ride to the summit with a great view for miles. Lake Placid Olympic Village is a short 8 miles from this campground offering unlimited attractions. The campground is situated in a birch and pine grove at the base of Whiteface Mountain.
One of the largest remote lakes in the Adirondacks and its proximity to 50,000 acres of wilderness, intermingled with 50 miles of well developed trails makes Cranberry Lake the outdoor enthusiasts perfect vacation spot. Whether it’s fishing, boating or just laying back and enjoying your well deserved vacation, Cranberry Lake is the spot for you. The lake has been stocked with trout in the past and many of the local ponds, streams and rivers support excellent trout fishing. The perfectly formed forest canopy in the campground provides excellent shade on hot summer days while the undergrowth provides excellent privacy for campers. From Cranberry Lake to other Adirondack Campgrounds requires only a short trip on a major highway.
Fish Creek Pond Campground offers a natural sand shoreline and water access for most campsites. Campers are provided with pristine rivers and ponds accessible to both motorized and non-motorized boats. Square Pond and Fish Creek Pond (the two bodies of water around which the campground is situated) are open to motor boat usage. Also, motorboat operators can enjoy miles of open water on the Upper Saranac Lake. A trailered boat launch with a small temporary parking area nearby receives steady usage throughout the camping season. Campers seeking non motorized boating opportunities may enjoy the Rollins Pond area or the nearby St. Regis Canoe Area (approx. 3 miles north of the campground). It is considered by many the finest and most attractive of all the Adirondack campgrounds. Camping equipment from tents to 40 foot RVs can be accommodated. The campground offers a variety of other recreational opportunities including: Nature Recreation Program, canoeing and boating, fishing, hiking, and bicycling.
Campers at Meacham Lake are provided with a wide open view of a truly undeveloped area and can often hear the loon calling in early morning and late evening. Aside from being an angler’s paradise, the campground has an activities area complete with Environmental Interpreters, volleyball, horseshoes, kids’ playground, and bathing beach. Meacham Lake Campground is located on the north and west shores of Meacham Lake. The campground represents the only development on this 1,203 acre lake. The campground is in a very scenic area, surrounded by the northern mountains and extensive tracts of Wild Forest state land. All types of camping units can be accommodated from small tents to large recreational vehicles. The west side offers primitive and walk-in sites, while the main campground will accommodate both tents and RVs.
Rollins Pond should be at the top of your list if you like canoes, rowboats, paddle boats or kayaks. All are available for rent at the boat launch livery site, and this long narrow body of water provides the ideal setting for days of fun as you take turns on all. Adventurers can canoe the waterway leading to Fish Creek, or just try their luck fishing in Whey Pond, located adjacent to the livery area, and “stocked” annually with trout. Rollins Pond Campground is located on the eastern shore of the 442 acre Rollins Pond. Camping equipment from tents to 40 foot RVs can be accommodated. Rollins Pond Campground offers a variety of recreational opportunities including: Canoeing and boating, fishing, hiking, bicycling, and Nature Recreation Program.

SARANAC LAKE ISLANDS

The Lower Saranac Lake Islands provide miles and miles of boater recreation and direct access to 4 other lakes through a set of locks which allow your vessel to be raised or lowered to the right water level. Coupled with the ability to camp on selected island sites, being able to fish for your dinner after hours of water skiing might make you never want to leave. Due to limited parking, campers may be required to use municipal lots in the Saranac Lake Village. When parking at the State Bridge location, you must prominently display your permit or camping document.
Because Crown Point Public Campground rests over battlefields and fort locations dating back to the 1730's, remnants of structures and sites remain for visitors to view. The lighthouse, rebuilt in 1911-1912 is positioned on the campground shore and overlooks the 281,600 acre Lake Champlain. The campground is located on the lower southwestern shore of Lake Champlain, north of the village of Crown Point. Majestically overlooking Lake Champlain and neighboring Vermont, the Crown Point bridge looms on the northern most shore of this campground and is one of the few bridges connecting New York State and Vermont. Sites are capable of holding any size RV and are blanketed with grass all summer long. There is one on site lean-to. The entire Crown Point Reservation, including all 49 acres of the campground, are listed in the National Register of Historic Places and has been designated by the United States Secretary of the Interior as a National Historic Landmark.
Eagle Point Campground is located on the west shore of Schroon Lake. Camping equipment from tents to 30 foot RV’s can be accommodated. The campground offers a variety of recreational opportunities, including: canoeing, boating, hiking, bicycling, and fishing in and around the adjacent area.
Located on picturesque Lake George just 2 miles north of the Village of Lake George, and has become a very popular vacation location. The Lake George region offers some of the most diverse recreation opportunities in the state. A Junior Naturalist Program is also offered at Hearthstone, and the successful camper can earn a naturalist patch for their efforts.

LAKE GEORGE BATTLEGROUND

Battleground campground is located 1/4 mile south of the Village of Lake George, a popular summertime resort. Nearby Prospect Mountain Veterans Memorial Parkway offers many spectacular views of the surrounding area. The campground is close to many historic locations. Many campers visit the Battleground to view the remains of the numerous military activities that took place on and around the campground location during the colonial period. The campground is near a self guided historical interpretive path at Battlefield Park with educational information available. A short walk to the Lake George Beach for swimming and sun bathing is also a very popular activity. Shopping and theme parks are very close by.
Located on the “Queen” of American Lakes, Lake George, the Lake George Islands offers a unique experience to campers. Lake George Islands campsites are accessible by boat only and are spread out over much of the lake. They are divided into three groups, Glen, Long and Narrow. Each group has its own headquarters to make site registration as convenient as possible. After choosing the area you want to camp in, you need to go to a private marina to park and launch. A fee is usually charged for both. Fishing, hiking, bird watching, boating and sailing are included in the many activities campers enjoy.
LAKE HARRIS

Lake Harris is fed by the mighty Hudson River in its beginning stages and is sheltered among large hardwood trees which offer splendid color contrasts throughout the year. While the lake offers many water craft opportunities, many love visiting the Visitor Interpretive Center or the Santanoni Preserve Historic Site, both close by. Lake Harris Campground is located on the northern shore of 275 acre Lake Harris. A number of the sites offer a good degree of privacy. Camping equipment from tents to 40 foot RVs can be accommodated. Lake Harris Campground offers a variety of recreational opportunities including: canoeing and boating, fishing, hiking, and bicycling.

LINCOLN POND

Lincoln Pond provides the opportunity for primitive, island, or “developed site” camping. Large enough to accommodate motor boats, but sheltered from most harsh winds, this facility maintains a bathing beach and provides a very popular canoe and rowboat rental area. Some sites are in remote areas and do not offer flush toilets or potable water without going back to main part of campground. Three sites are boat access only.
LUZERNE

Located on Fourth Lake, this is a very popular family campground. It is within the Lake George region which offers some of the most diverse recreational opportunities in NYS. Boating and canoeing (rentals available), along with fishing are popular activities. Swimming at the day-use or campers’ beach along with sun bathing is popular with recreation enthusiasts. Luzerne offers a Nature Recreation Program, which seeks to promote a clearer understanding and appreciation of the Adirondacks through nature walks, games and other activities for all ages. The campground also offers facilities and access to trails for the horse riding enthusiast.

PARADOX LAKE

Paradox Lake is nestled on rolling hills of hardwood and creates the impression of being miles from the real world. With canoes and rowboats available for rent at the registration booth and abundant fish in the lake, this facility provides camping at its finest. Paradox Lake Campground is a comparatively small campground located on the shore of Dark Bay, which is on Paradox Lake. The lake itself is approximately 4-3/4 miles long.
Putnam Pond is a key starting point for hikers trekking into the Pharaoh Lake Wilderness area. While it also offers interior site camping, which requires a boat for access, most campers prefer to stay in the developed area where they can try their hand fishing by the dam, or renting a canoe or rowboat. The campsites offer privacy; they are large and well forested. Camping equipment from tents to 30 foot RVs can be accommodated. The campground offers a variety of recreational opportunities including: Canoeing and boating, fishing, and hiking.

Located on the northern end of Lake George, Rogers Rock is a very popular family campground. Campers can enjoy swimming, bicycling, fishing, and boating at this recreation facility. Hiking is also available nearby on state marked trails. There are two (2) group camping areas which are very popular for family and friends. It is located just 6 miles south of Ticonderoga which has many historical sites of interest and educational opportunities.
SCAROON MANOR

Scaroon Manor, located at Taylor’s Point on the western shore of Schroon Lake, offers great opportunities to hike, fish, motorboat, paddle, bicycle, picnic and swim. The campground has 60 campsites located on three loops which can accommodate tents, trailers and self-contained RV campers. Each loop has a centrally-located combined bathroom and shower house with flush toilets and hot water. Scaroon Manor Campground has been universally designed to accommodate all users, including the day use area which offers a covered pavilion, picnic tables, and an accessible path to the beach area which enables wheelchair access to the water and two accessible piers.

SHARP BRIDGE

The facility location is best suited for daily hiking excursions in the Adirondack High Peaks, since it is a short distance from some of the most renowned or notable hiking areas in the state, and is only minutes from Exit 30 on the Route 87, Northway. Sharp Bridge Campground is located on the west shore of the Schroon River. Camping equipment from tents to 45 foot RVs can be accommodated. The campground offers a variety of recreational opportunities including: nearby canoeing and boating, fishing, hiking, and bicycling.
This boat access only campground is located on Fourth Lake of the Fulton Chain of Lakes. In his book “The Adirondacks” (Fulton Chain-Big Moose Region), Joseph F. Grady indicates that Alger Island was called Deer Island in the late 1700’s. It was later called Big Island. Alger Island came from the family name of its longtime owners, father and son Mort and Ollie Alger. Alger Island was purchased by the state of New York on January 16, 1950 from Charles J. Engel. Many of the campsites have lean-tos which were constructed during the 1960’s with the last one finished in 1968.
BROWN TRACT POND

Tucked away in seclusion a short way off the main tourist route, this “jewel” of a campground remains one of the best kept secrets in the Adirondacks. The Thousand Islands Region is teeming with camping areas on islands in the St. Lawrence River and at points along Lake Ontario and on the northern end of Lake Champlain. The largest camping complex in the region is Wellesley Island State Park. Many sites are secluded, accessible only on foot, and many are less-rugged tent/trailer sites directly on the shore. The park also has rustic cabins and a dozen cottages available year-round. The park has a full service marina and four boat launches, and a sandy beach on the river offers great swimming and sunbathing. Be sure to check out the recreation barn and 9-hole golf course on the Island. One of the main attractions of the park is the Minna Anthony Common Nature Center, which includes a museum, varied habitats such as wooded wetlands, three miles of shoreline and open granite outcrops, and miles of trails for hiking, cross-country skiing and nature education. The nature center provides educational and recreational programs for all ages and includes a 1/4 mile trail usable by people with disabilities that includes access to picnic tables and the seasonal butterfly house.
Nearby Dewolf Point State Park has a cabin colony, camping area, stone gazebo and dockage for boats on the Lake of the Isles in the St. Lawrence River. Fishermen, families and nature lovers appreciate this small park’s historic beauty.

Another island park accessible only by boat, Canoe Picnic-Point State Park offers a quiet camping experience in a wooded area with plenty of dock space available. A colony of 5 rustic cabins is very popular at Canoe-Point. From Wellesley Island, you can boat to this remote island park that faces our neighbor to the north, Canada.
Burnham Point State Park is small and quiet with lightly-wooded campsites, ideal for boating, fishing and relaxing. Boaters can explore local towns, islands and historic sites for miles up and down the scenic river. Popular game fish include bass, pike, muskellunge and walleye. In addition to tent and trailer campsites, the park has boat docks, a playground and picnic areas.

Cedar Point State Park, one of the oldest state parks in New York, is a popular spot, offering excellent camping, fishing, boating and swimming. The beach is sheltered and sandy, there are docks for boats, a fishing pier and picnic grounds. From the overlook area, visitors can watch ocean-going freighters pass by.
Eel Weir State Park is located on the Oswegatchie River two miles from Black Lake. Both waterways are known for excellent bass fishing and are ideal for canoes or rowboats. As it is small and secluded, the park is a perfect place to get away from it all. Thirty-eight campsites are available, as are a picnic area and pavilion.

Jacques Cartier State Park has a sheltered bay protecting the sandy swimming beach and campers dock. The two biggest draws for the park are unlimited boating opportunities and excellent fishing. The park’s large open lawns encourage games and picnics. The park affords electrified riverfront campsites and non-electric sites in a pine forest setting.
Higley Flow State Park is nestled among the Adirondack foothills on the picturesque Raquette River. Spacious campsites, separated from neighbors by pine trees, abound in the park. The terrain is hilly and heavily-wooded and there is a sandy beach on the reservoir of the Raquette River and hiking trails. The scenic river is ideal for canoeing and fishing. The Beaver Pond Nature Trail has interpretive signs that describe the six distinct habitats through which the trail passes.

Keewaydin State Park is on the St. Lawrence River, offering excellent boating, fishing, and during the winter, ice fishing. The sheltered marina provides dock space for seasonal and transient visitors. The park’s campsites overlook the river and the terrain includes steep, rocky outcroppings between the campsites and the shoreline, providing vantage points for watching the ocean-going vessels traversing the river. The award-winning family destination also has a swimming pool and picnic areas.
Kring Point State Park offers water views in every direction. Half of the park’s campsites are on the shorefront and virtually every cabin and campsite has a river or bay view. The park has docks on the river and the bay and a sandy beach on the St. Lawrence. Fishing, boating, swimming and picnicking are major activities. Cross a footbridge for leisurely walks on the trails of adjacent Morgan Island.

Robert Moses State Park (not to be confused with Robert Moses Beach on Long Island), near the Canadian border, features wooded campsites and cabins, trails winding through fields, forests and wetlands suitable for nature lovers, hikers and cross-country skiers. The park, part of the St. Lawrence Seaway Trail, is located partly on the mainland and partly on Barnhart Island. The park includes electric campsites, cabins, a marina and boat launch, some of the best fishing in the Northeast, picnic areas, a swimming beach, tennis courts and a year-round nature center offering educational exhibits, special events and outreach programs.
Robert G. Wehle State Park boasts 1,100 acres and stunning Lake Ontario shorefront. The compound’s private setting accommodates eight and includes a main house, guest quarters, studio and formal gardens. Also available are more than 10 miles of hiking/mountain biking trails, tennis court, picnicking and cross-country skiing. The main house features a sun porch, two spacious bedrooms with private baths, living room, full kitchen and laundry. The guest cottage offers two additional bedrooms with private baths, expansive bay windows and a kitchenette. The former artist’s studio serves as a charming recreation room. All three buildings offer spectacular water views. Within a short drive of Wehle, visitors can enjoy the beautiful sandy beach at Southwick Beach State Park, an adjoining managed wildlife area, miles of shoreline and the Sackets Harbor Battlefield State Historic Site, offering an interpreted experience of the War of 1812 with guided tours. Note: The cliff-side location may not be suitable for families with young children.
Family-oriented Coles Creek State Park has both open and wooded campsites on a scenic point on Lake St. Lawrence, and is also ideal for boating and fishing. As host to international fishing competitions—with carp a featured catch—the park is becoming a renowned destination for anglers.

Southwick Beach State Park is spacious and popular, known for outstanding swimming and sunning on its long sandy beach. Campers can enjoy picnicking, hiking and games on the playing fields. The park is adjacent to the Lakeview Wildlife Management Area, home to the environmentally-sensitive coastal sand dunes. The park's nature and hiking trails adjoin the wildlife management area and its trail system, which visitors are encouraged to use.
Cumberland Bay and Macomb Reservation State Parks are popular destinations for campers in the Lake Champlain area. Cumberland Bay, has campsites, a natural sand beach and picnic grounds. Macomb Reservation has wooded campsites, nature and hiking trails, an artificial pond for fishing and swimming. There is also the world renowned Salmon River where, as you guessed from its name, the salmon fishing is excellent!

Westcott Beach and Whetstone Gulf, are two more New York State Parks that dot the region with exceptional camping. The Plateau at Westcott Beach perches high above Lake Ontario providing epic views of Lake Ontario. For campers at Whetstone, the rugged and striking terrain surrounding the three-mile gorge is ringed by a hiking trail, highlighting many spectacular vistas.
Grass Point State Park is on a point of land that projects into the American Channel of the St. Lawrence River, known for some of the best fishing in the country. The park is a popular spot for campers who come to boat, swim, fish, picnic, or just to relax. There is a marina and boat launch, an area is available for games, and the sandy beach and shallow water are excellent for children.

Long Point State Park is in a remote area, offering a peaceful, relaxing camping experience. Situated on a peninsula facing Chaumont Bay on Lake Ontario, the park is small and almost completely surrounded by water with great views from anywhere in the park. Campsites are fairly open and grass-covered with scattered trees, a playground and picnic areas.
Cabin and Cottage Rentals

For those who wish to enjoy the cabin scene at state parks while enjoying all the comforts of home, there are several cabin and cottage rentals. These accommodations are fully equipped with the latest conveniences and usually supply everything from dishes and utensils to bedding.

Cabin Rate Information

- Daily Rate is 1/4 the weekly charge. Cabin rates are based on a base rate fee plus amenities. Refundable key, fire extinguisher, or smoke detector charges may be assessed upon registration at the park.
- Base rate fees include: electricity, access to public toilet, access to running water, stove and refrigerator.
- Amenities include: open or screened porch, separate living area, woodstove or fireplace, propane or electric heat, water in cabin, toilet in cabin, shower in cabin, more than one bedroom, prime condition (rehabilitated or refurbished within past five years), and prime location (popular because of seclusion, close proximity to park amenities or extraordinary view). Out of state resident fees apply for all cabins and cottages (except at Sebago Cabins) - $25/week or $6.25/night.

Access Pass: Base fee will be fully refunded, less a $10.00 refund processing fee. The Access Pass excludes fees for amenities as well as fees for booking, changing and canceling a reservation. Access pass is not accepted for cabins or cottage rentals in the Palisades Region.

Unlimited day use vehicle entry to most of the 178 state parks, 55 Department of Environmental Conservation forest preserve facilities, boat launch sites, arboretums and park preserves.

Visit www.nysparks.com
You are in one of our beautiful New York State parks and you have decided to set out on a hiking adventure. There are a couple of things to make sure of before you begin your journey.

- **Know your limits**
  Do some homework and pick a trail that is suited to your skills and level of fitness. We all think we can climb Mount Marcy, but most likely we will enjoy a nice leisurely stroll around lakes and streams. Maps are available at many park offices or trailhead interpretive board. Pick a distance that you are comfortable with.

- **Know the trail**
  The map will highlight information such as trail length and degree of difficulty. Some will also highlight points of interest and supply a brief history of the area. The map will prove important if you lose your way. (Breadcrumb trails have not proved successful in the past!)

- **Wear the proper gear**
  Hiking boots that fit properly and appropriate clothing are essential. Always prepare for the worst possible weather. If you’re carrying a pack, make sure it fits properly and is comfortable. In your daypack, you should have the following: at least two quarts of water, snacks (bring enough for a full day of hiking), first aid kit, pocketknife, flashlight, whistle, compass, sunscreen, extra clothing, an emergency space blanket and a fire-starting kit. Be aware of local weather forecasts.

- **Let someone know...**
  where you are going: Always leave your itinerary with a friend stating where you will be hiking and when you plan to return. In case you get lost or are injured, they will know where to begin looking for you.

Fireside Dining

Who says that fireside dining has to be boring?

Here are some of our favorite recipes:

**Omelet-in-a-Bag**

You will need 1-2 eggs per person, a little milk for each, and any fixings you might like: cheese, ham, onions, peppers (you get the idea), a large freezer zip-lock bag and pita bread (optional). Bring a pan of water to boil and put all of the ingredients into the bag. **BE SURE IT IS CLOSED TIGHTLY!** Place the bag in boiling water and cook until done, about 3-5 minutes. Instant omelet you can eat right from the bag or put in the pita bread for a breakfast sandwich. The best part...no pan to clean!

**Dutch Oven Cobbler**

Light charcoal bricks and burn white. Pour 2 (29-oz) cans of peaches and juice into #12 Dutch oven. Sprinkle 1 dry white cake mix over fruit. Do not stir. Dust with cinnamon and dot with 1 stick of margarine or butter. Place lid on pot. Set oven on top of hot charcoal. Put pieces of hot charcoal evenly spaced on top of lid. Let bake for about 40 minutes or until browned and bubbly. Serve by large spoonfuls.

**Give me Some More! (S’more!!!)**

Toast one marshmallow until a light golden color. Top with two squares of chocolate and then sandwich in between one graham cracker broken in half. (If you want a different taste, replace the graham cracker with chocolate chip cookies; it will be a tough choice!)

**Campfire Chili**

3 lbs. cooked hamburger, 2 jars salsa, 2 lg. cans hot chili beans, 2 cans chopped tomatoes, 2 cans of tomato juice, 2 pkgs. chili seasoning

Directions: Mix all together in a large pan and let it cook. The longer the better! This makes a lot of chili, so you may want to cut it in half or add to it if for a big family. We make this after breakfast and let it sit on the side of the fire and cook all day. -Enjoy!

---

**CAMPER ALERT: DON’T MOVE FIREWOOD!**

A new regulation is now in effect that prohibits moving untreated firewood more than 50 miles from its source. The regulation also bans importing firewood into New York unless it has been kiln-dried to kill invasive insects.

You can help protect our forests and campgrounds from tree-killing insects and diseases:

- Leave firewood at home - do not bring wood from home to campgrounds or parks.
- Only use firewood from local sources, or wood that has been heat-treated to kill pests.
- Burn ALL your wood before leaving your campsite.

The Department of Environmental Conservation (DEC) operates all State campgrounds within the Adirondack and Catskill Forest Preserves. The Office of Parks, Recreation & Historic Preservation (OPRHP) operates all other camping areas and cabins in New York’s state parks. Through the New York State Camping/Cabin Reservation System, you may reserve space, which will guarantee accommodations at any state camping area. Services, programs and facilities vary among campgrounds. Contact the park for current schedules. While reservations are not required, they are highly recommended. You can also rent any available campsite or cabin as a “walkup” on a first-come, first-serve basis when you arrive ready to camp.

Fees, policies and Call Center hours are subject to change at any time.

Leave no trace  It’s all about respect, for the environment and for others. If campers would just leave their campsites clean the way they found them, or a little better, then we will all be doing our share to promote safe, clean camping.

Carry in Carry out  Your mom is not there to pick up after you, so, if you take it in with you, take it out as well. If you are a backcountry camper, this is particularly important because there are no dumpsters in the backcountry.

Gray water  Would you drink the dirty dish water that you just washed your pans in? Not even on a dare! So why should anyone else have to? Be sure to dump gray water away from any fresh water sources and use biodegradable soap.

Ashes from the grill  Please don’t dump your ashes on the ground. Either dump them in the campfire ring, or dump them in a bag and put the bag in the campground dumpster. Remember, only you can prevent forest fires!

Laundries, restrooms and showers  Everyone likes a clean restroom. To guarantee this, please just clean up after yourself. If you are in the backwoods, take appropriate measures to cover human waste. Simple measures will provide great pleasures!

Fish cleaning stations  Think of them as a place where you can show your friends that the big one did not get away. They are safe and prevent fish eyes from rolling around the campground.

Dumpsters  Be sure to take along some plastic garbage bags to collect trash. The last thing you should do before leaving the campground is to make one more round and pick up any trash and put it in the dumpster. Please make sure the dumpsters are closed so that bears and raccoons cannot rummage through them.

Above all, remember: WE ALL BENEFIT WHEN NO ONE KNOWS WE WERE THERE.
