OP29200

Two (2) Articulated Aerial Lifts for Saratoga  
Spa State Park

No.	IFB Section	IFB Page	Question	Response
1	2.1.2	9	On the bid titled 2 Articulated booms, the 2nd boom is the Teupen model but, after reviewing the bid specs the only thing we would not be able to accommodate is allowing the basket to raise up as the unit is moving. That is a safety thing and for spider lifts there's no way around it.	OPRHP has confirmed the Lot 2 – 82' Aerial Lift with Tracks will not allow the basket to raise up as the unit is moving. Therefore, OPHRP is amending IFB OP29200 to remove the following specificfication: Ability to raise basket while driving.
