

## OUR GOAL

Our team of environmental educators offer an array of unique and diverse guided outings in all state parks located in Orleans, Monroe, Genesee, Wyoming, and Livingston counties.

We offer personalized programs for all types of organizations and groups, in addition to providing free public programs for individuals and families.

## PROGRAMMING FOR GROUPS

### **Bus Tours:**

Our team of educators offer step-on guide services at Letchworth State Park. A member of our staff will board your bus and lead a tour through the park, stopping at several scenic points along the way.

### **Schools & Groups:**

Our programs are designed to help organizations meet next generation science standards, badge requirements, or other group specific needs.

We can work directly with your group to personalize any program.
