

COMMUNITY MEETING

ABOUT THE FUTURE OF DUNHAM RESERVOIR DAM

AT GRAFTON LAKES STATE PARK

NYS Parks will present the results of an engineering study conducted to understand the dam's condition and the options to bring the structure into compliance with NYS Dam Safety requirements. The options include rehabilitation or removal (decommissioning) of the dam.

NYS Parks is seeking public feedback at this early stage of the decision process to understand the range of perspectives, opportunities, and concerns of community members.

Please join us to learn more about the project and share your thoughts.

June 11, 2025, 6 -8 pm

6:00 - Open House

6:30 - 8:00 - Presentation

**Tamarac Middle/High School
3992 NY-2, Troy NY 12180**
