BALTIMORE ORIOLE	☆	
Finches		
Purple Finch	☆	
House Finch	☆	
AMERICAN GOLDFINCH	☆	
Old World Sparrows		
House Sparrow	☆	

NEW FOR LIST		

Thacher Park: Great birding can be found along the Indian Ladder Trail, the Paint Mine Trail and any of the woodland trails. It is especially productive in spring & summer.

Thacher Nature Center: Great birding in diverse habitats of forest, field, and lakeshore. Fields along Ketcham Road are managed for grassland species.

Thompson's Lake: Spring and fall are the best times to bird the lake as waterfowl and shorebirds, often including some surprises, frequent the lake during migration.
