Request for Navigational Aid (s) Placement

Note: Please read all instructions before filling out this form. Please write legibly.

Danger Markers are typically placed where known water depths are less than 4 feet at distances greater than 100 feet from shore. Danger Markers or Regulatory Marks may be placed within 100 feet from shore when such placement is deemed necessary to public safety. Examples of obstructions, both natural and man-made, include sunken islands, rock piles, abandoned cribbing, wrecks, old piles or anything else below the waters surface. Obstructions that may also warrant marking could include piers, docks and partially submerged islands that otherwise can not be readily detected by boaters while underway, especially if the obstruction lies in an area heavily used by boaters or within close proximity to a navigable channel.

- INSTRUCTIONS -

1. Please use this form for requests on the following bodies of water only:
   - Allegheny Reservoir
   - Black Lake
   - Canadarago Lake
   - Canandaigua Lake
   - Cayuga Lake
   - Chautauqua Lake
   - Conesus Lake
   - Cuba Lake
   - Delta Lake
   - Findley Lake
   - Higley Flow
   - Irondequoit Bay
   - Keuka Lake
   - Lake Bonaparte
   - Oneida Lake
   - Onondaga Lake
   - Otsego Lake
   - Owasco Lake
   - Rushford Lake
   - Sandy Pond
   - Saratoga Lake
   - Seneca Lake
   - Silver Lake
   - Skaneateles Lake

2. Attach one drawing or section of a chart showing the general location of the obstruction on the body of water. This drawing should show as much of the lake as possible along with geographic points of reference.

3. Attach a second drawing showing the specific area in which the hazard is located. Indicate position, distance from shore, distance from other objects in the vicinity, etc.

4. If possible, please provide a GPS position of the hazard in the space provided.

5. Please mail the completed package to the Bureau of Marine Services at the address provided above.

Parks Use Only

Corrective Action Taken? Yes ☐ No ☐

Explaination of Action

Complainant Contacted, and Advised.

Date: ____________________________
GENERAL LOCATION OF HAZARD ON WATERWAY

Show the general area in which the hazard to navigation is located on the waterway in question. Include as much of the waterway as possible. You may substitute a portion of a chart, satellite photo, etc.

DETAIL DRAWING OF SURROUNDING WATER/LAND/OBSTRUCTIONS

Show the specific area in which the hazard to navigation is located and indicate its position. Show distance from shore, distance from other objects in the vicinity, location of landmarks, etc. You may substitute a portion of a chart, satellite photo, etc. if the required information is included.
