

NYS OFFICE OF PARKS, RECREATION AND HISTORIC PRESERVATION ANNOUNCES CONSOLIDATED FUNDING APPLICATION WORKSHOPS

Public Forums to learn about the CFA process and how to access the up to \$1 billion in economic development funding from agency programs through one application

The Office of Parks, Recreation and Historic Preservation today announced the launch of Consolidated Funding Application (CFA) workshops as part of Governor Andrew M. Cuomo's historic initiative to stimulate job creation and economic growth through Regional Councils.

In July, Governor Cuomo announced the creation of ten Regional Economic Development Councils to transform New York's operating model for economic development. As part of the Regional Council initiative, a NYS Consolidated Funding Application (CFA) was created to serve as the single application economic development projects must complete to be eligible to access the \$1 billion in state resources that have been made available to support the Regional Councils. The CFA allows an applicant to access multiple funding sources from dozens of existing programs through one comprehensive application, making it quicker and easier to receive funding.

The CFA workshops will be held throughout the first week in October at over a dozen locations across the state, covering all ten regions. The workshops will include an overview of the application and CFA process followed by informational breakout sessions on specific areas of funding available for economic development projects.

The nine state agencies and authorities whose funding will be made available through the CFA process are Empire State Development; NYS Canal Corporation; Energy Research and Development Authority; Environmental Facilities Corporation; Homes and Community Renewal; Department of Labor; Parks, Recreation and Historic Preservation; Department of State; and Department of Transportation. Applicants must submit their CFA by October 31, 2011.

In addition, the New York Power Authority and Economic Development Power Allocation Board (EDPAB) will be using the CFA to implement "Recharge New York," a new, low-cost power program for New York businesses and not-for-profits. CFAs for Recharge will be due November 30, 2011.

Once the CFA is submitted by the applicant, it goes to the local Regional Council to be reviewed and ranked as part of its strategic planning process.

Application materials are available online at <http://nyworks.ny.gov>.
