NY Natural Heritage Program Database Records Citation:

* Significant natural communities as defined by NYNHP are those of statewide importance and include all the known rare communities and the best examples of common community types in the state. Community classification based on "Ecological Communities of New York State" by Edinger et al. 2015. Coverage is mapped to the full extent discernable from field data and orthoimagery interpretation by NYNHP.

Base layers: DOT 1:24000 planimetric images.
Database accessed April 2015.
