Ecological Communities were delineated from orthoimagery interpretation and field verification. Classification based on "Ecological Communities of New York State" by Edinger et al. 2002. Delineation based on interpretation of 2001 and 2004 orthoimagery and field verification.
Significant Ecological Communities

Low salt marsh
Maritime dunes

Significant natural communities as defined by NYNHP include rare natural communities and outstanding examples of common communities. Classification based on "Ecological Communities of New York State" by Edinger et al. 2002. Delineation based on interpretation of 2001 and 2004 orthoimagery and field verification.
