As part of this project, the golf area will be used for golf activities and moved across Naples Ave near the golf events. Low level down-lighting will be installed to assist staff and protect patrons. Stormwater management improvements will be made to Parking Fields 1 and 2 to enhance patron experience.

Wastewater systems for the main bathhouse will be replaced. Wastewater leaks will take place in the future.

Shoreline protection and nourishment strategies. To protect the bluff, the material from dredging operations will be placed on the Nissequogue River on the Fresh Pond side of the Town of Huntington. A Bird Conservation Area will be designated where Phragmites will be managed through the Wildlife Management Plan.

Sustainability
Sustainability strategies will be developed to include these areas for trailheads. Park signage will be developed adjacent to Parking Field 1 and Parking Field 2. Any further additions to the signage will include accessibility to information to people taking the train on how to get to the park.

Maintenance
Chainsaw maintenance and storage will be provided to support the maintenance of the Sunken Meadow State Park. Maintenance and rescue equipment will be provided to support the maintenance of Long Island Sound State Park. Disc Golf will be added to the East/West Orchard Picnic Area. A spray park will be constructed in the West Pavilion Addition to the parking area.

Historic Trees
Historic trees will be replaced upon death or removal and assessed and improved where appropriate. The Location of the Significant Trees will be provided to Long Island Excavation Service, Inc. to support their ongoing monitoring and preservation efforts.

Paddle boarding/Windsurfing
Paddle boarding/Windsurfing will be expanded to allow paddlers to enter the water from Beach 2 and Beach 3. A spray park will be constructed in the West Pavilion Addition to the parking area.

Stormwater Management
Stormwater Management improvements will be made to Parking Field 1 and Parking Field 2. A stairway will be constructed for event patrons to access the beach reducing impacts of patrons using the boardwalk.

Water Quality
Water Quality improvements will be made to Parking Field 1 and Parking Field 2. A stairway will be constructed for event patrons to access the beach reducing impacts of patrons using the boardwalk.

Archaeology
